WARNING

At the time of publication when we do not know how the health crisis situation will change, we want to inform you that certain events and activities may be cancelled or postponed.

INTRODUCTION

With a strong belief that a major region or metropolitan area cannot exist without excellent higher education and a lively, dynamic student experience, the main institutions of higher education in Rouen – both public and private – decided to combine their efforts. This resulted in the creation of the Conference of Higher Education for the Rouen Metropolitan Area (Conférence de l'Enseignement Supérieur de l'Agglomération de Rouen or CESAR) ten years ago.

Through collective initiatives, eleven institutions – CESI, CNAM Normandie, ENSA Normandie, ERFPS, ESADHaR, ESIGELEC, INSA Rouen Normandie, IRTS-IDS Normandie, NEOMA Business School, UniLaSalle and University of Rouen Normandy – have concentrated their focus on the common goal of increasing the appeal of the Rouen metropolitan area by promoting higher education and research and offering an excellent standard of living for its students. This is the exact purpose of this student guide, which we have strove to make as comprehensive as possible so that you can discover all of the activities and amenities that the wonderful metropolitan area of Rouen has to offer, from its excellent academic environment to its dynamic lifestyle. We hope that you'll find this guide useful throughout the year and even further on in your life in Rouen and that it will give you the chance to meet and discover wonderful people and places throughout the area.

And you can rest assured that all of the academic institutions have set up adapted healthcare protocols so you can pursue your studies in the the safest conditions.

I hope you have an excellent academic year.

MÉTROPOLE ROUEN NORMANDIE

The primary economic hub and most populous area in Normandy, Métropole Rouen Normandie has nearly 45,000 students, 6 campuses, many grandes écoles and training across the region - a true student city. Just 1 hour and 10 minutes from Paris and 40 minutes from the sea, its catchment area of 800,000 people and 300,000 jobs offers a remarkable quality of life and plenty of professional opportunities for students and young graduates.

The Métropole is unique, lively and active. Its city centre Rouen has retained its authenticity and charm, and the Métropole - both historic and modern, urban, rural and by the river - is a region ideally suited for living and studying.

The Métropole also benefits from the economic momentum driven by a group of businesses made up of major groups and successful SMEs. An industrial stronghold of various innovative activities (logistics, cars, aircraft, health, eco-technology, chemistry, etc.), it also relies on the tertiary sector to provide jobs (banks, insurance, business services, digital economy with the national certification Normandy French Tech).

With over 3,200 researchers and around one hundred laboratories – many CNRS or INSERM certified – and many industrial units and competitiveness clusters, it is a real think tank which allows it to tackle the major challenges of the future such as the industry of the future and smart mobility, as illustrated by the Rouen Normandy Autonomous Lab project.

• SOCIAL COVERAGE (ILLNESS, ACCIDENT, ETC.)

Are you a foreign student? Interested in beginning or continuing your higher education in France?

Registering at a French institute of higher education for the first time? Don't have a French Social Security number? You will need to register for coverage of your health care expenses throughout your time in higher education:

www.etudiant-etranger.ameli.fr (English website, also available in Spanish, Arabic and Chinese).

Registration is mandatory and free of charge and will entitle you to reimbursement of your health care expenses.

To be reimbursed for your health care expenses at the highest possible rate, you can take out supplementary health care coverage or coverage from a mutual fund ("mutuelle").

• IF YOU ARE PURSUING YOUR STUDIES IN 2020/2021

If you are pursuing your studies in 2020/2021 and you enrolled in a student insurance fund (such as a management centre), you will automatically be placed in a classic plan. Since 1 September 2019, all of the students previously enrolled in a student insurance fund for their social security are automatically registered with the Primary Health Insurance Fund in their area of residence.

Student insurance funds continue to provide preventive health services, working in conjunction with the French public health service, and offer complementary healthcare services specifically adapted for students.
